

Recycling Made Simple

Recycling Solutions for Your
Single Stream Program

"The Perfect Containers for a Successful Recycling Program"

Indoor Centralized

Waste Watcher Recycling Station

Use as a single or connect to a waste container for a full station. Optional signage allows you to educate participants on the acceptable materials

Bermuda Series

This sophisticated series is available with custom decals to color code your single stream program. Single, double and triple units are available

Smart Sort Recycling Station

22 gallon capacity and available with single stream opening as well as waste in a variety of colors

Big Bin 45

For your BIG single stream recycling needs! Body and lid available in a variety of colors

In-Door/Out-Door Sort

Customize for your program, use 2 openings for recyclables and 1 for waste to encourage more recycling and less waste

Outdoor

Super Sorter Series

This durable series is available in multiple sizes all accommodating a single stream opening. Add signage to the front of your container to promote your single stream program and the materials accepted

Recycling and Waste Cart

Available in 32, 65 and 95 Gallon sizes

Evolution Series

Front door access is available to your double or triple metal station. Custom openings for single stream are available, with custom labels

Moovi

Bring your mixed recyclables to the curb in the easy to maneuver Moovi, available in a variety of colors

Wave Solo

Available with a mixed opening to encourage both cans & bottles and paper collection

All of our containers are made with recycled content and are 100% recyclable.

An efficiently set up recycling program will decrease your impact on the environment.

Deskside

- ① 41 Quart Recycling and Waste Basket,
- ② 28 Quart Recycling and Waste Basket with
- ③ Hanging Waste Basket (BC1500),
- ④ Deskside Recycling Bin (BC1001)

Billi Box
2 sizes available, the ultimate solution for classrooms

Promotional Items

Custom Stamping

To help educate participants, make your message clearly visible by custom stamping the acceptable materials on the side or front of your container. This will help ensure all recyclables end up recycled.

Waste Watcher Signage

Since the Waste Watcher Sign Frame accommodates an 8.5" x 11" sign, it allows you to customize and print off your own. What a great opportunity to promote your new single stream program and educate users on the acceptable materials!

Mini Roll-Out Cart (BC300)

These mini roll-out carts are a fun and effective way to promote your new single stream program!

What People are Saying About Busch Systems.

"Thank you Busch Systems, for providing quality, durable products that have definitely made a lasting mark in our community!"

Symantha, Meridian, Idaho

"Appearance is almost as important as quality and recycled content percentage of the bins, especially in newly renovated buildings where aesthetics is important. Busch Systems recycling containers are aesthetically pleasing and custom-built to suit our needs".

Dan, Youngstown State

"The best design and highest quality containers make for maximum recycling participation rates. Don't settle for anything less."
